Film claiming Obama's mother once posed for pornographic pictures sent to a million swing voters \_ Mail Online.pdf

Ms. Collins,

Attached is a PDF of the Daily Mail article that was intended as Exhibit 29. I apologize for the oversight.

Relatedly, on February 14, I sent an email that included a link to an online streaming copy of "Dreams From My Real Father." I would appreciate it if you could confirm for me that that email was received, and that the film was able to be watched and downloaded. Because if a full-length copy of the film is \*not\* already in your possession and part of the complaint file, I would like to procure a DVD copy and supplement my filing as soon as possible with the DVD.

Yours,  
 Loren Collins

## Now it's getting REALLY dirty: Outrageous film claiming Obama's mother once posed for pornographic pictures is sent to a MILLION swing voters

- The film claims that Mr Obama's real father is left wing poet and Communist party activist, Frank Marshall Davis
- 100,000 copies of the DVD, containing extraordinary claims, have already been mailed to voters in Ohio with up to three million more planned to go out
- As Mitt Romney lags in the polls the material could be potentially damaging for the Obama campaign
- It has already won the support of Alabama's Republican Party chairman Bill Armistead
- Democrat consultant Steve Murphy called the accusations 'low' and motivated by race and money

More than a million voters in swing states are being sent an anti-Obama documentary that claims the President's mother once posed for pornographic photos wearing bondage gear.

The shocking - and totally unfounded - claims made in the DVD represent a new low in the election dirty tricks war today provoking fury among Democrats and likely to trigger outrage in the White House.

'Dreams From My Real Father', made by a right-wing film-maker who is a long-time critic of Obama, includes images of a woman it claims is the President's mother Ann Dunham clad in leather gloves, boots and a corset posing seductively on a couch.

The film also alleges that Mr Obama's real father is left wing poet poet and Communist party activist Frank Marshall Davis, and that Ms Dunham's marriage was a 'sham' to cover this up.

The extraordinary claims are the latest twist in the debunked 'birther' conspiracy which has raised questions over Mr Obama's past.

But they could have serious consequences as more than one million copies have been mailed to voters in Ohio, a key swing state where Mitt Romney is lagging in the polls.

Some 100,000 copies have also been sent to voters in Nevada and the same number to New Hampshire - with up to three million more still to come.

It has even won the support of Alabama's Republican Party chairman Bill Armistead who has said: 'That (the film) is absolutely frightening. I've seen it. I verified that it is factual, all of it. People can determine.'

### Dreams from My Real Father A Story of Reds and Deception

At age 18, Barack Obama admittedly arrived at Occidental College a committed revolutionary Marxist. What was the source of Obama's foundation in Marxism? Throughout his 2008 Presidential campaign and term in office, questions have been raised regarding Barack Obama's family background, economic philosophy, and fundamental political ideology. *Dreams from My Real Father* is the alternative Barack Obama "autobiography," offering a divergent theory of what may have shaped our 44th President's life and politics.

In *Dreams from My Real Father*, Barack Obama is portrayed by a voiceover actor who chronicles Barack Obama's life journey in socialism, from birth through his election to the Presidency. The film begins by presenting the case that Barack Obama's real father was Frank Marshall Davis, a Communist Party USA propagandist who likely shaped

**Argument: Tea Party members are suspected to be behind the funding of the DVD made by Joel Gilbert and research that went into the website**

But Democrat consultant Steve Murphy said today: 'It's about the lowest thing you can do to accuse, with no evidence, the opposition candidate's mother of being a porn star.'

'There are two motives behind this - racism and money. It's a cynical attempt to make some coin and exploit the views of the fringes of mainstream views.'

'Dreams From My Real Father' claims that the President's family history is an elaborate lie.

The real story is that his mother's marriage to Barack Obama Sr was a sham to cover up her affair with Mr Davis, who Mr Obama has referred to as his 'mentor'.

Mr Davis supposedly photographed Ms Dunham whilst she was pregnant with Mr Obama and sold the photos to 1950s magazines with titles like 'Bizarre Life', 'Exotique', and 'Secret Pleasures'.

### Obama - Davis Children High School Photo Comparisons

Frank Marshall Davis, who was African American, married Helen Canfield Davis, a white woman, in Chicago on May 11, 1946.

Two of Davis' children, Lynn and Mark, attended Farrington High School in Honolulu. Lynn Davis (born August 15, 1949) graduated from Farrington High with the class of 1967. Mark Davis (born November 9, 1950) graduated Farrington High with the class of 1968. Mark Davis' yearbook photo (center on right) is strikingly similar to Barack Obama's high school photos (left, right). Lynn Davis' graduation photo (below right) compares remarkably to Barack Obama as an adult. Is President Obama a half-sibling of the Davis children?

Claims: A website for the DVD entitled, *Dreams from My Real Father*, compares photographs of a young Mr Davis with Barack Obama's high school photographs presenting them as similar

+9

**Like father like son? Mr Gilbert's DVD claims that Ann Dunham's marriage to Barack Obama Sr is a 'sham' to cover up her affair with Mr Davis (right)**

In one the woman - there is no proof offered that she is Ms Dunham - is posing wearing the corset, gaudy earrings and a large necklace with her hair cut short.

In another photo she sits on a couch staring into the camera and in the other she is putting on an elbow length black leather glove.

In a third she is reclining on the couch with her buttocks clearly visible and in others she is naked apart from a pair of high heels.

In the film, a narrator who is supposed to be Mr Obama says: 'These photos were taken a few weeks before 1960, when mom was about five weeks pregnant with me.'

'Frank then sold the photos to men's mail-order catalogues.'

+9

**Obama's real mother: 100,000 copies of the video directed by Joe Gilbert were mailed to voters in Ohio claiming that Ann Dunham (front, right) is not the virtuous woman Mr Obama purports her to be**

The film also claims that Mr Obama's grandfather was not a furniture salesman but actually a CIA agent.

The 'Barack Obama' narrator says: 'My election was not a sudden political phenomenon.

'It was the culmination of an American socialist movement that my real father, Frank Marshall Davis, nurtured in Chicago and Hawaii, and has been quietly infiltrating the US economy, universities, and media for decades.'

The case: Mr Gilbert has not revealed who funded the video Dreams from My Real Father

According to the film Mr Obama made regular visits to Mr Davis from the age of 10 where he was 'indoctrinated in Marxism during his formative years'.

The movie's director Joel Gilbert said the documentary was the result of two years of research but he is already facing allegations it is a dirty tricks campaign.

Speaking to MailOnline Mr Gilbert claimed that he matched up Ms Dunham to the pornographic pictures by comparing them to her high school photographs at the time.

He and 'other researchers' made the connection but he did not employ a photography expert.

Mr Gilbert said: 'Her teeth matched, her nose matched, everything matched. It's obvious.

'People don't want to hear this because there is a mass hysteria around President Obama.

'Nobody wants to hear about the gap between what he says and what he wants to do.'

Mr Gilbert also declined to discuss who had paid for the film and would only reveal it was 'privately funded'.

There is already speculation that Tea Party groups may have been behind it.

Mr Gilbert has been unapologetic about his film and said that he investigated the President because he thought he had a 'passion for class struggle that did not fit with his background'.

He has said that he turned up 'convincing evidence that Ann Dunham had an intimate relationship with Mr Davis' including '30 photos of her in various compromising states of nudity'.

Mr Gilbert said: 'Right away I could see that Davis has a striking resemblance to Obama while the Kenyan Obama

looked nothing like him.

+9

**Target:** Since he took office in 2008, Mr Obama has been at the centre of many right wing theories about his background and nationality including one that suggested he might be an alien

'Davis was not only the biological father of Barack Obama but also the ideological father.

'I've concluded that the people who were asking: "Where's the birth certificate?" were asking the wrong question. The real question: "Who's the father?"'

In his memoirs Mr Obama has written how his mother, who was from Wichita, Kansas, met his Kenyan-born father whilst they were both studying Russian at the University of Hawaii in Honolulu.

They married in February 1961 but in August of that year she moved to Seattle to study at the University of Washington.

+9

**Reputation:** Joel Gilbert is a Los Angeles based filmmaker known for his rabble-rousing style with films like 'Atomic Jihad: Ahmadinejad's Coming War for Islamic Revival and Obama's Politics of Defeat'

Mr Obama was born on August 4 in Honolulu before she left.

His long form birth certificate lists a 25-year-old student called 'Barack Hussein Obama' as his dad, referring to his father.

### WHO IS JOEL GILBERT?

- Joel Gilbert is a Los Angeles based filmmaker known for his rabble-rousing style with films like 'Atomic Jihad: Ahmadinejad's Coming War for Islamic Revival and Obama's Politics of Defeat'.
- Aged 48, he claims to have studied at the London School of Economics and George Washington University before moving into film.
- His entertainment company Highway 61 Entertainment has produced 15 films including 'Farewell Israel: Bush, Iran and the Revolt of Islam', which is a history of Islamic-Jewish conflict.
- He has appeared on right wing radio shows such as the Jerry Doyle Show and is a contributing editor for anti-Obama website familysecuritymatters.org

Mr Obama Sr is said to have finished his economics degree in Hawaii then studied at Harvard before moving back to Kenya in 1964, the year he and Ms Dunham divorced.

In a separate development the director of the anti-Obama film 2016, which has become a surprise box office hit, has made lurid claims similar to Mr Gilbert's about Ms Dunham in his book: 'Obama's America'.

In the book, which reached no.1 on the New York Times bestseller list, Dinesh D'Souza alleges that she sent her son to Hawaii just so she could cheat on his father with Indonesian men.

According to extracts of the book on the Daily Beast: 'Ann's sexual adventuring may seem a little surprising in view of the fact that she was a large woman who kept getting larger.

'Learning about Ann's sexual adventures in Indonesia, I realized how wrong I had been to consider Barack Obama Sr. the playboy ... Ann ... was the real playgirl, and despite all her reservations about power, she was using her American background and economic and social power to purchase the romantic attention of third-world men.'

Since taking office Mr Obama has been the subject of a number of bizarre claims about his past.

Right wing bloggers have claimed that the 'scar' on his head was evidence he had undergone some kind of secret surgery.

They suggested it could be anything from a routine procedure to the work of extra-terrestrials.

The birther movement, which was championed by real estate mogul Donald Trump, said that as the President was not from Hawaii it meant he was not eligible to be in the White House.

When Mr Obama released the long form of his birth certificate the issue finally went away.

The issue of Mr Obama's religion is another point of attack and despite publicly proclaiming his Christian beliefs, some still believe he is a Muslim.

I guess that is why Obama visited Kenya and his fathers family in his late teens/early 20s, because he thought his father was this Davis guy. Makes absolutely no sense. Silly article. More silly, assuming arguendo, it is all true, what difference does it make. Obama never knew this man. The dumb middle class Americans who are falling for this ribble bc of propaganda funded by wealthy Americans who want to get away with claiming breaks for transferring money to foreign banks, sending American Jobs overseas, and getting away with having to pay less in taxes than middle class Americans. If you think these people are looking out for the benefit of middle class Americans, I have a bridge to sell you. When they are done gutting this country for everything they can get out of it, they will take their money and move to Gstaad or Monaco while the rest of us are left to clean up this mess. Even Romney's family once left, to go to Mexico, when did not like government restrictions on polygamy.

Dunham attained a bachelor's in mathematics and master's and Ph.D. in anthropology. She was in school when this magazine was published. What a bunch of hogwash. It shows the Republicans have nothing so they are throwing anything they can, hoping something sticks, and they are just wasting their time because he will be reelected.

Obama has no room to complain. He went to the Illinois Supreme Court to unseal the custody records of his opponent against the wishes of his opponent and his ex-wife he tried to desperately to keep them private for the sake of their child. Nope. Unsealed and spread the sex life all over the media - much of which was untrue. He did this to Paul "Jack" Ryan for custody record info and to Blair Hull whose wife wanted a protection order due to the acrimonious nature of their divorce. Both parties had their records sealed and all parties wanted them to remain sealed - he went to court had them unsealed and spread them all over the media. Of course his records, the papers and articles he submitted in college and law school outlining his beliefs for government and law, those he wants private and has refused to release. What is more pertinent, an ugly divorce record, or a candidates beliefs on the legal system and the role of government?

What a disgusting video blasting our President. To criticize his policies is fine, but these personal attacks are horrible. So Birthers, is being the son of an American Communist better or worse than being born out of the country? Is he a right-wing radical Christian or a Muslim? A pushover on foreign policy or a warmonger? Huh? HUH? I thought so.
